RFID HARD TAG HP096

MARKETS:

Waste management

Industry

Logistics

COLOUR:

White

The HP096 is an RFID hard tag made from PVC, a flexible and ductile thermoplastic material. This rectangular tag measures 100 x 24.5 x 1.5 mm and weighs just 5 grams. I**t can be applied to non-metallic surfaces and, upon request, to metallic surfaces. For secure attachment to objects, it features two pre-drilled holes for screw-mounting.** Available in white, the HP096 supports **LF (Low Frequency), HF (High Frequency), and UHF (Ultra High Frequency) frequencies**, offering broad compatibility.

It can be customised with your logo using offset and pad printing, while numbering can be precisely applied with either laser or inkjet technology.

MARKETS

With an **IP67** protection rating, the HP096 is highly resistant to water and hermetic to fumes and dust. This makes it an ideal solution for applications in **asset management and waste management,** providing reliable and durable identification even in challenging industrial environments.

Technical specifications	
Application	Metal (on request) and non-metal surfaces
IP rating	67
Dimensions	100 x 24.5 x 1.5 mm - ø hole 4 mm
Material	PVC
Weight	5 g
Application method	Screws or adhesive
Operating and storage temperature	-35°C ~ +75°C

Customisation	
Colour	White
Type of printing	Offset and pad printing
Type of numbering	Laser, inkjet
