

RFID HARD TAG HT088

MARKETS:

Industry

Logistics

COLOUR:

Green White

The **HT088** is an RFID hard tag made from ABS, a material known for its high resistance to impacts, shocks, and temperature variations. This particular tag features a unique interlocking closure system with a metal cable and a magnetic lock. This tag is **reusable**; you can easily disassemble and re-deploy it after its initial use. The tag surface measures **60 x 28 x 5 mm**, the metal cable is 175 mm long, and the magnetic pin has a diameter of 20 mm. The total weight of the tag is **9.5 grams**.

The HT088 is available in both European and US UHF frequencies with the **Monza R6P chip**. It comes in green and white, and you can customise it using laser technology.

MARKETS

Thanks to its IP68 rating, the HT088 is highly waterproof and dust-proof. This makes it suitable for **asset management, production processes, and logistics**, where its reusability and robust design are significant advantages.

European frequency (EU) 868 MHz - US frequency 920 MHz

RFID features

Chip	Memory	ISO Standard
MONZA R6P	8 bytes - TID: 12 bytes - EPC: 16 bytes	ISO 18000-63 / EPC Gen 2 V2
MONZA R6P US	8 bytes - TID: 12 bytes - EPC: 16 bytes	ISO 18000-63 / EPC Gen 2 V2

Technical specification

Application	Non-metal surfaces
Dimensions	Tag head: 60 x 28 mm x 5 mm; Metal cable length: 175mm; Lock diameter: 20mm
Material	ABS
IP rating	68
Application method	Metal pin
Operating temperature	-40°C ~ +60°C
Storage temperature	-40°C ~ +60°C

Customisation

Colour	Green
Type of printing and numbering	Laser
