

RFID LABEL LB032

MARKETS:

Retail

COLOUR:

White

The LB032 is a rectangular, adhesive RFID label made from PET, a flexible thermoplastic material resistant to cuts and wear.

It measures **64 x 28 mm** and **operates on UHF frequency with the MONZA M730 chip.**

The LB032 is applied with adhesive to **non-metallic surfaces**. Printing can be done using offset or inkjet for both colour and black and white prints, while thermographic printing is used specifically for black and white prints.

MARKETS

The LB032 is ideal for **identifying items in jewelry stores.**

European frequency (EU) 868 MHz - US frequency 920 MHz

RFID features

Chip	Memory	ISO Standard
MONZA M730	0 bytes - TID: 12 bytes - EPC: 16 bytes	ISO 18000-63 / EPC Gen 2 V2

Technical specifications

Application	Non-metal surfaces
Dimensions	64 x 28 mm
Material	PET
Application method	Adhesive
Storage temperature	+20°C ~ + 30°C

Customisation

Colour	White
Type of printing and numbering	Colour and b/w: offset, inkjet; thermographic printing in b/w
